25X1A

Comment. The total stocks of coal for operational use are adequate for 10 days. The stocks of brown coal briquettes have decreased, but those of hard coal have increased correspondingly.

Comment. The backlog of loaded cars awaiting dispatch has increased

25X1A **

slightly. The backlog of loaded cars awaiting dispatch has increased slightly. Comment. Although the number of cars in operation has increased slightly as compared with the last report, it is still below the fixed target of 80,000 cars. 25X1A *** ■
